Comments to the instructor of this course

Comment

I loved the most intuitive and concept-oriented aspect of Prof. Dippel's lectures and exams as opposed to some of other econ courses focused on mere speed of calculation. Lecture material was well organized and not having to buy an expensive course reader was very reasonable. Would definitely recommend Dippel's class to others.

The class has given me the concepts and tools I need to understand the world's economics. Overall it is a very great learning experience. One suggestion - if the professor can make the topic transition clearer during lecture, it would make it easier to follow the class.

One of the best courses taken at Anderson. Professor provided a very amicable classroom experience. Course content and format is well structured which helps in learning. Macroeconomic concepts were explained clearly which helped to relate to real incidents happening around the world. 5 Stars !!
